The new generation of children are coming! This November you had better get ready because it’s that time of year when Kinder School begins. This year we have 45 children in Kinder school, who are excited about starting school and spending time with their buddies.

Every Friday the soon to be Kinders come to school to get use to our routines, listen to stories, do craft activities and meet with their buddies. They also have time to play and look around the school.

Indy who is the buddy of Olivia and Jared said they all love to play and like the same things. Also she said they were both shy at first but are starting to talk more after meeting her.

Kinder school allows next year’s kindergarten an opportunity to get used to being at school. They will learn how to sit still, listen, and put up their hand to ask questions or say something. Mr Penberthy and Mr Boreland also want them to have fun and be happy.

Believe it or not there are no twins in kindergarten next year but there are 3 Oliver’s, 2 Brooklyn’s and 2 Jared’s. Lots of new names to remember!
