Get ready to move, the Moveathon is here! All students participated in a variety of activities, where we had to keep moving and rotate around different games. These activities included bean bag golf, ball games, an exercise circuit, sack races, an obstacle course and fun fitness movements. Each of these 6 activities lasted around 13 minutes and all together we spent a total of 80 minutes outside moving!

Everyone was encouraged to collect sponsorship from our relatives, neighbours and friends to help contribute towards our school technology fund. The class which raises the most money will win a Pizza party for them to enjoy.

Blake D 5/6T said “I enjoyed the obstacle course the most because it was the most fun and energetic.”
